BRAND : SAFE-T WEAR

SAFE-T WEAR POLYETHYLENE SLEEVES

Product Overview

Safe-T Wear Polyethylene Sleeves are designed to provide reliable arm and clothing protection in hygiene-controlled and contamination-sensitive environments. Manufactured from high-quality low-density polyethylene (LDPE), these disposable sleeves help protect against spills, splashes, and particulate contamination while maintaining flexibility and comfort.

They are intended for general hygiene and contamination-control applications and are suitable for single-use wear.

Product Specifications

- Product Name :Safe-T Wear Polyethylene Sleeves
- Material :LDPE (Low Density Polyethylene)
- Finish : Smooth
- Usage :Disposable, Single Use
- Sterility : Non-Sterile
- Compliance :CFIA & FDA Compliant
- Country of Origin : China

Physical Measurements

- Length : 460 ± 30 mm
- Width : 220 ± 10 mm
- Thickness : 0.03 mm
- Weight per Piece : 3.8 g
- Case Weight : 4.3 kg

Storage & Shelf Handling

- Store in a clean, dry environment
- Avoid direct sunlight
- Keep away from heat and moisture

Features & Benefits

- LDPE material for lightweight, flexible protection
- Smooth finish for comfort and ease of movement
- Disposable design supports hygiene compliance
- Available in multiple thickness options
- CFIA & FDA compliant

Intended Use & Limitations

- Arm and clothing protection in hygiene-controlled environments
- Suitable for food handling, manufacturing, packaging, and warehousing
- General contamination-control applications
- Single-use, disposable only
- Non-sterile; not for surgical use
- Not for hazardous chemicals, sharp objects, or high-temperature exposure

Note: Always consult the full Safety Data Sheet (SDS) for detailed information.
